

Cannulas & Clinical Waste

Reference Number: RDF1770-23

Date of Response: 18/09/23

Further to your Freedom of Information Act request, please find the Trust's response(s) below:

Please be aware that the Royal Devon University Healthcare NHS Foundation Trust (Royal Devon) has existed since 1st April 2022 following the integration of the Northern Devon Healthcare NHS Trust (known as Northern Services) and the Royal Devon and Exeter NHS Foundation Trust (known as Eastern Services).

Dear Royal Devon University Healthcare NHS Foundation Trust,

I would be grateful if you could reply to the FOI request for assessing the environment impact of cannulation in NHS trusts and hospitals.

I am writing to you due to an enquiry I have regarding information on your use of cannulas in your trust.

- 1. How many Adult or Paediatric cannulation procedures (Peripheral Cannula passed) were done in your trust in the past financial year? This can be estimated figure (from number of cannulas purchased) or actual if any such records are kept by the trust*

Answer: 2022-2023 (April to March) – 431. The Trust does not readily code these procedures unless specifically admitted for or for specific treatment impacting the patients care such as for dialysis or TPN.

- 2. Do you use any form of prepacked cannulation kits that provide all appropriate equipment needed? These are manufactured outside the hospital and delivered as one whole pack, or the items are purchased / used separately.*

Answer: No.

- 3. Which type of cannula is used / preferred at your trust or hospital? There are two types – one with safety mechanism E.g., BD or Vygon or ones without safety. The safety cannulas are designed to prevent needle stick injuries.*

Answer: Safety design – on occasion some non-safety for the small/fragile veins.

- 4. Does the trust / hospital use any particular cannula more than others and if so what is the name of manufacturer(s) and breakdown of their supply e-g leading manufactures are BD, Vygon, etc*

Answer: Please attached TR18 reports representing Royal Devon's Eastern & Northern Services.

5. *Is there any breakdown of cannulas used by their size / gauge (e-g 22G Blue / 20G pink) ?*

Answer: Please see response to question 4.

6. *Do you use the NHS supply chain or purchase these cannulas / cannulation packs directly independent suppliers / distributors or companies within your trust?*

Answer: NHSSC.

a. *If so, please can we be provided with the supplier(s) / distributor (s) name(s) and breakdown of items purchase in last financial year*

Answer: Please see response to question 4.

7. *What is the total number of hospital beds you have within your trust and its occupied capacity?*

Answer: 1091 beds, 921 occupied.

8. *What is the total number of annual attendance in the following departments:*

a. *Accident and Emergency*

Answer: 2022-2023 (April to March) – 145,330

b. *Surgical Assessments Unit*

Answer: 2022-2023 (April to March) – 11,094

c. *Medical Day Unit / Medical Admission Units*

Answer: 2022-2023 (April to March) – 29,036

9. *What is the annual budget for clinical waste disposal?*

Answer: £385k for financial year 2022 - 2023.

10. *Do you have any figures in weight (tons) of clinical waste disposed of by your trust?*

Answer: Please see below:

- Clinical waste incineration - 173 tonnes
- Clinical waste alternative treatment - 423 tonnes
- Offensive waste - 154 tonnes

TR18 - Demand by NPC/group/section
