Please find attached Trust response.

Please note: <5

In accordance with Section 40 (2) of the Freedom of Information Act 2000, we are unable to provide figures where the number of patients/staff is less than or equal to five and could risk the identification of those patients/staff and breach Caldicott principles. In these cases ≤5 is used to indicate that a figure between 1 and 5 is being suppressed.

Please note that if only one cell required suppression, at least one other number has been suppressed to avoid calculation of suppressed values from the totals. (if information presented in table format with totals)

These figures are withheld under Section 40(2) due to low staff numbers. The disclosure of which could risk the identification of those staff members and breach Caldicott principles.

This follows NHS Digital (formerly HSCIC) analysis guidance (2014) which states that small numbers within local authorities, wards, postcode districts, CCG's providers and Trusts may allow identification of patients/staff and should not be published.
