

Title:

Interventional Radiology Procedures

Reference Number: RDF1152-22

Date of Response: 18/01/23

Further to your Freedom of Information Act request, please find the Trust's response(s) below:

1. We require a breakdown of the IR procedures performed in the Radiology Department as per the attached excel sheet.

Please note that we do not require you to provide us with patient-identifiable information. All the information can be obtained by running a statistic within your imaging department's RIS or CREST system. The information is not manually collated and the process does not involve pulling patients' notes or reviewing paperwork. All the codes are provided making it simple for someone in radiology (maybe a data manager, a Radiographer or similar) to run the statistics.

Please find attached response in the format of Excel sheet.

Please note:- <5 - In accordance with Section 40 (2) of the Freedom of Information Act 2000, we are unable to provide figures where the number of patients/staff is less than or equal to five and could risk the identification of those patients/staff and breach Caldicott principles.

In these cases ≤ 5 is used to indicate that a figure between 1 and 5 is being suppressed.

These figures are withheld under Section 40(2) due to low staff numbers. The disclosure of which could risk the identification of those staff members and breach Caldicott principles.

This follows NHS Digital (formerly HSCIC) analysis guidance (2014) which states that small numbers within local authorities, wards, postcode districts, CCG's providers and Trusts may allow identification of patients/staff and should not be published.

2. Number of beds in the trust

Please find attached response in the format of Excel sheet.

3. No. of interventional radiologists in the unit
On-call arrangement (for example 1 in 5 or 1 in 6)

Please find attached response in the format of Excel sheet.

Eastern response

Additional info

No. of interventional radiologists in the unit	Eastern 2 whole time equivalents
Oncall arrangement (for example 1 in 5 or 1 in 6)	1 in 6 rota but lack of staff means only 4 on the rota, 2 out of 6 weekends covered by external locums. Weeknights covered by internal locums.
No. of dedicated interventional radiology nurses in the unit	6
Number of interventional radiology angiologists	2
Day case unit in radiology department?	Y
If yes, how many beds?	4
No. of beds in the trust	945

Additional info

Northern

No. of interventional radiologists in the unit
Oncall arrangement (for example 1 in 5 or 1 in 6)
No. of dedicated interventional radiology nurses in the unit
Number of interventional radiology angiosuites
Day case unit in radiology department?
If yes, how many beds?
No. of beds in the trust

2

No on-call arrangements
