<b>DPIA Reference</b>	<i>DPIA1321</i>
<b>DPIA Title</b>	4Ways Server Upgrade
<b>Summary of Proposal</b> This is provided to Information Governance Steering Group and Safety and Risk as an overview of the project. It is also published on the website and should provide the public with an understanding of the information asset and how data is protected as a standalone statement.	The 4Ways Cube server is used by the operations team at 4Ways to retrieve imaging from PACS, as well as relevant clinical information from the CRIS platform as requested by 4Ways radiologists. The server needs to be accessible out-of-hours.  The current server is physical, running Server 2008 and needs to be upgraded.
