

## Wound Dressings

---

Reference Number: RDF2010-23

Date of Response: 27/11/23

Further to your Freedom of Information Act request, please find the Trust's response(s) below:

- 1) [The types or brands of wound dressings currently used by Royal Devon University Healthcare NHS Foundation Trust.](#)

Answer: Please find attached Excel sheet.

- 2) [The sources of purchase for these wound dressings, including the names of suppliers or vendors.](#)

Answer: Please find attached Excel sheet.

- 3) [Whether these wound dressings contain chitosan as one of their components or ingredients.](#)

The Trust is unable to respond to your request as the information requested is not held by the Trust in an electronic format that could be easily extracted. To carry out this work would require the manual extraction of information and would exceed the appropriate cost limit as set out in Section 12 (1) of the Freedom of Information Act 2000 and is therefore exempt.

Under the Freedom of Information Act 2000 Section 12 (1) and defined in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004, a public authority is not obliged to comply with a request for information if it estimates that the cost of complying would exceed the appropriate limit. The limit of £450 represents the estimated cost of one person spending two and a half days in determining whether the Trust holds the information, locating, retrieving, and extracting that information.

In a bid to assist under Section 16 of the Freedom of Information Act, there is a formulary for the community which can be accessed by anyone via the internet.

Please see link as follows:

- <https://northeast.devonformularyguidance.nhs.uk/formulary/chapters/17-wound-management>

- 4) [If available, any data or studies the hospital has regarding the efficacy of these chitosan-based dressings.](#) The Trust is unable to answer this question as no data is held. The Trust has not carried out any data studies relating to wound dressings.
