

DPIA Reference	<i>DPIA1297</i>
DPIA Title	M*Modal Fluency Direct and CDI Engage.
Summary of Proposal This is provided to Information Governance Steering Group and Safety and Risk as an overview of the project. It is also published on the website and should provide the public with an understanding of the information asset and how data is protected as a standalone statement.	<p>Fluency Direct is a dictation application with comprehensive clinical dictionaries which enables clinicians to accurately and quickly dictate notes and letter directly into EPIC.</p> <p>CDI Engage</p> <p>CDI Engage is an application that analyzes the medical document at the time of creation and/or review, it creates real-time nudges that are presented to the user at the time of document creation.</p> <p>This functionality, also referred to as Computer Assisted Physician Documentation (CAPD), allows care providers to take action and include e.g. missing information in the document before signing off, thereby increasing both the quality and the efficiency of the overall documentation process.</p> <p>Note: CDI- Clinical Documentation Improvement</p>
Date Ratified	22 September 2022
