

Surgical Procedure Numbers by Speciality

Reference Number: RDF2198-23

Date of Response: 29/01/24

Further to your Freedom of Information Act request, please find the Trust's response(s) below:

Please see below codes for procedure numbers requested and provide updated numbers for the below, during the time period of November 2022 to November 2023?

Answer: Please see below for the date range 1st November 2022 to 30th November 2023 inclusive. In accordance with Section 40 (2) of the Freedom of Information Act 2000, we are unable to provide figures where the number of patients is less than or equal to five and could risk the identification of those patients and breach Caldicott principles. In these cases ≤5 is used to indicate that a figure between 1 and 5 is being suppressed.

This follows NHS Digital (formerly HSCIC) analysis guidance (2014) which states that small numbers within local authorities, wards, postcode districts, CCG's providers and Trusts may allow identification of patients and should not be published.
