

Diphencyprone (DCP) treatment aftercare

Please follow the below advice after you have attended for Diphencyprone treatment:

Please keep your head covered 6-8 hours after treatment. The cover needs to exclude all light.

Avoid touching the treatment area for 24 hours. If you do touch the area, wash your hands immediately.

Do not wash your scalp for 24-36 hours after treatment.

If the treatment area on your head becomes very hot, red and itchy, apply the Dermovate cream supplied and repeat every 8-12 hours until the discomfort has settled.

Please take a photograph of the treatment area approximately 24-36 hours after treatment.

Please contact the Dermatology Department on the number below if you have any queries or concerns.
