

Title

Contract Register/ Procurement Strategy Plan

Reference Number: RDF1900-23
Date of Response: 16/10/2023

Further to your Freedom of Information Act request, please find the Trust's response(s) below:

Please be aware that the Royal Devon University Healthcare NHS Foundation Trust (Royal Devon) has existed since 1st April 2022 following the integration of the Northern Devon Healthcare NHS Trust (known as Northern Services) and the Royal Devon and Exeter NHS Foundation Trust (known as Eastern Services).

I would like to submit a request for some information from the organisation, in relation to their contract's register.

1. If the organisation has a CRM system or a similar system, there should be a facility to download and extract contract data.
2. You may forward me a Weblink to a portal to download the contract register, please make sure all the organisation's contracts are provided as doing prior research I have found that most organisations have only uploaded a small portion of all their contracts.
3. For those organisations planning to make an exemption around spend, the spend information I have requested is an overall figure and I am not requesting a complete breakdown of services relating to the spend.

Please provide me with the contract's register file in an excel format. The FULL contract register should display all the organisations existing/live contracts I would like the register to display the following columns/headings:

1. Contract Reference -Unique reference number associated with the contract. Please see attached - Provided if available.
2. Contract Title - Provided if available. Refer to the description.
3. Procurement Category –Please state the category name of the contract, I wish to know the category the contract is under. Please see on attached Excel sheet
4. Supplier Name. Please see on attached Excel sheet.
5. Spend (Total, Annual or contract value).

The Trust holds this information. However, this information is commercially sensitive, and its release would, or would be likely to prejudice the commercial interests of the Trust. As such the Trust issues a refusal notice under Section 17 of the FOI Act for the information requested in question 5 and the following Exemptions have been applied:

Section 43 (2) - Commercial Interests

In applying the exemption under Section 43(2) the Freedom of Information Act the Trust has balanced the public interest in withholding the information against the public interest in disclosure. The Trust has considered all the relevant factors in the public interest test and concluded that the benefit to the public in applying the exemption outweighs the public interest in releasing the information requested as a result of the prejudices and losses that would potentially affect the Trust and patients. As such this information is being withheld under Section 43 (2).

Public Interest Test (PIT) - Non- Disclosure: -

- a. Section 43. Excluded because releasing the costs of contracts would give potential suppliers an unfair advantage over other bidders when bidding for future work. That advantage would contravene the principle of fairness required from the Trust in Regulation 18 of the Public Contracts Regulations 2015. The release of contract values would undermine the Trust's suppliers' competitiveness in the market and breach the Trust's contracts with suppliers, which typically require contract values to be kept confidential.
- b. Data is held in the Trust's contracts database, but those figures are sporadic and inconsistent where they are recorded. The values may refer to estimates, actuals or holding values and do not relate to real spending. The period quoted may be a few months to a few years and is in any case old data. Those values are not linked to or updated by the finance or procurement systems. The Trust does not use the data in this field and releasing those figures would be misleading.

Public Interest Test (PIT) – For Disclosure

The Trust understand the need for openness and accountability for tender processes and price, and it recognises the need for value of money.

Section 21

In a bid to assist under Section 16 of the FOI Act, we also apply Section 21 regarding information publicly available elsewhere. The Trust is a public authority and is open and transparent about the use of public funds.

- We publish an Annual Report and Accounts available on our website at <https://royaldevon.nhs.uk/about-us/publications/reports-and-trust-documents/>
- We also publish Expenditure data on our website at <https://royaldevon.nhs.uk/about-us/information-governance/freedom-of-information-foi-and-environmental-information-regulations-eir/expenditure-data/>

This information may not be exactly what you have asked for but where the data is not commercially sensitive, and it is appropriate supplier spend is documented within this published information.

6. Contract's Duration - Please see on attached Excel sheet. Some data available. In other cases, you can calculate the duration from start and finish dates.

7. Contract's Extensions - Provided if available

8. Contract's Start Date: Please see on attached Excel sheet

9. Contract's Expiry Date: Please see on attached Excel sheet
10. Contract Description [Please provide me with as much detail as possible.]
11. Contact Owner (Person that manages the contract register)
12. Contact details of section 151 officer Please see on attached Excel sheet
13. CPV codes/Pro-Class Information not held.

Procurement Strategy Plan

Please attach the procurement strategy plan along with the contract register. There is no current strategy.

Contract Data/API Contact Details

1. Can you also provide me with contact details of the person responsible for the actual contract's register or someone responsible for API? [Name, Job Title, Telephone, Email Address] At the very least provide me with their actual job title.

John Malloch, Head of Procurement : john.malloch@nhs.net.
