

Title:  
**Contract Register**

---

Reference Number: RDF1024

Date of Response: 16/11/2022

Further to your Freedom of Information Act request, please find the Trust's response(s) below:

**I would like to submit a request for some information from the organisation, in relation to their contract's register.**

**1. The FULL contract register should display all the organisations existing/live contracts I would like the register to display the following columns/headings: Contract Reference -Unique reference number associated with the contract.**

The Trust holds this information. Provided in the attached spreadsheets.

**2. Contract Title**

This information is not held by the Trust – please refer to answer to Q10 – Contract Description.

**3. Procurement Category –Please state the category name of the contract, I wish to know the category the contract is under.**

The Trust holds this information. Provided in the attached spreadsheets

**4. Supplier Name**

The Trust holds this information. Provided in the attached spreadsheets .

**5. Spend (Total, Annual or contract value)**

The Trust holds this information.

This information is commercially sensitive and its release would, or would be likely to prejudice the commercial interests of the Trust.

In applying the exemption under Section 43(2) the Freedom of Information Act the Trust has balanced the public interest in withholding the information against the public interest in disclosure. The Trust has considered all the relevant factors in the public interest test and concluded that the benefit to the public in applying the exemption outweighs the public interest in releasing the information requested as a result of the prejudices and losses that would potentially affect the Trust and patients. As such this information is being withheld under Section 43 (2).

**Public Interest Test (PIT) - Non- Disclosure:-**

The Trust cannot reveal the values because the contract value, years of cover and description give sufficient information in many cases to pinpoint the exact cost and thus provide competitors with a benchmark to beat competitive tendering, which would breach PCR 2015.

**Public Interest Test (PIT) – For Disclosure**

The Trust understand the need for openness and accountability for tender processes and price, and it recognises the need for value of money.

**The Trust also applies Section 12 to this question.**

There are 1239 contracts in this list so it could take 3 person-weeks of work to review and research each contract to review the information held.

.To carry out this work would exceed the appropriate cost limit as set out in Section 12 (1) of the Freedom of Information Act 2000 and is therefore exempt.

Under the Freedom of Information Act 2000 Section 12 (1) and defined in the Freedom of Information and Data Protection (Appropriate Limit and Fees) Regulations 2004, a public authority is not obliged to comply with a request for information if it estimates that the cost of complying would exceed the appropriate limit. The limit of £450 represents the estimated cost of one person spending two and a half days in determining whether the Trust holds the information, locating, retrieving and extracting that information.

**6. Contract's Duration**

The Trust holds this information. It can be calculated from the start and end dates.

**7. Contract's Extensions**

The Trust holds this information. Provided in the attached spreadsheets.

**8. Contract's Start Date**

The Trust holds this information. Provided in the attached spreadsheets.

**9. Contract's Expiry Date**

The Trust holds this information. Provided in the attached spreadsheets.

**10. Contract Description [Please provide me with as much detail as possible.]**

The Trust holds this information. Provided in the attached spreadsheets.

**11. Contact Owner (Person that manages the contract register)**

The Trust holds this information. Provided in the attached spreadsheets.

**12. CPV codes/Pro-Class**

The Trust does not hold this information. This is not recorded in the Trust's contract databases.

**Contract Data/API Contact Details**

**13. Can you also provide me with contact details of the person responsible for the actual contract's register or someone responsible for API? [Name, Job Title, Telephone, Email Address] At the very least provide me with their actual job title.**

\* John Malloch, Head of Procurement (East), is responsible for the Eastern contract database. For the Northern service Darren Proctor Head of Procurement (North).

\*The Trust only releases the names of Heads of departments under Section 40 (2) of the Freedom of Information Act 2000. Personal Information, where disclosure may contravene the Data Protection Act 2018 and therefore applies an exemption under Section 40 (2) - Personal Information of the Freedom of Information Act 2000 and Section 10 of the Data Protection Act 2018.

**(Meaning of API “a set of functions and procedures that allow the creation of applications which access the features or data of an operating system, application, or other service.”)**

**IMPORTANT**

- 1. If the organisation has a CRM system or a similar system, there should be a facility to download and extract contract data.**
- 2. You may forward me a Weblink to a portal to download the contract register, please make sure all the organisation’s contracts are provided as doing prior research I have found that most organisations have only uploaded a small portion of all their contracts.**
- 3. For those organisations planning to make an exemption around spend, the spend information I have requested is an overall figure and I am not requesting a complete breakdown of services relating to the spend.**
